Binetou GUEYE

Front-End Developer – Angular & React | UI/UX

Dakar, Senegal | +221 77 678 77 11 | binetouguey3s@gmail.com

LinkedIn | GitHub | Portfolio

PROFILE

Front-End Developer certified by Simplon Senegal (Web, Mobile and AI Developer), specialized in Angular and React. I turn Figma mockups into responsive, accessible web and mobile interfaces connected to REST APIs. Trained in UI/UX design, I bridge user experience and code, and I integrate AI features into interfaces.

SKILLS

- **Front-End Development:** build responsive interfaces with Angular, React, TypeScript, JavaScript, HTML5, CSS3 and TailwindCSS
- **Integration:** turn Figma mockups into pixel-perfect pages, build PWAs and create animations (GSAP)
- **Data Visualization:** display dashboards and dynamic charts with Chart.js
- **API Consumption:** connect interfaces to REST APIs and manage asynchronous calls and application state
- **UI/UX Design:** create mockups, prototypes, logos and design systems in Figma
- **Artificial Intelligence:** integrate an AI chatbot, speech-to-text and text-to-speech into an interface
- **Tools & Deployment:** build with Vite and deploy continuously on Vercel and Netlify
- **Methods:** work with Scrum and Kanban (Scrum Master role) and version code with Git and GitHub
- **Soft skills:** rigor, adaptability, team spirit, autonomy, perseverance, curiosity

PROJECTS

Portfolio – Personal animated website *November 2026*
Front-End Developer

- Development of an animated portfolio with React 19, TypeScript, Vite and TailwindCSS.
- Animations built with GSAP and deployment on Vercel.

Sen Suivi – Mental well-being monitoring platform *September – November 2026*
Full-Stack Developer

- Certification project: Figma mockups and development of the Angular user interface.
- Interfaces for the three-level chatbot, the anonymous forum and matching with professionals.
- Mood journal, stress self-assessment tests and tracking dashboards, with voice input.
- Consumption of the Django REST APIs and continuous deployment of the front end on Vercel.

YEES NAA CONNECT – Marketplace for the local rice sector *June – July 2026*
Full-Stack Developer

- Integration of the Figma design system with TailwindCSS for the admin and processor pages.
- Workflow planning and task allocation for a 4-person team.
- Containerization with Docker and production deployment on LWS.

AgriMétéo Sénégal – Climate monitoring application *June 2026*
Front-End Developer

- Development of an Angular 17 SPA with TypeScript and TailwindCSS to monitor the climate in Senegal's 14 regions.
- Creation of Angular services and components, and integration of dynamic charts with Chart.js.
- Pair work with a branch-based Git workflow and writing of the technical documentation.

Sunu Signalement – Civic-tech incident reporting application *June 2026*
Front-End Developer

- Development of an Angular 17 application with standalone components to report urban incidents in Dakar.

- Delivery with complete documentation and a task breakdown.

Sunu Idées – AI-powered idea management application *May – June 2026*
Full-Stack Developer

- Evolution of the application from vanilla JavaScript to Vite.js, then to Angular.
- Supabase integration and automatic AI categorization of ideas through the OpenRouter API.
- Deployment on Vercel with a server-side proxy to protect the API key.

EDUCATION

Professional Certification – Web, Mobile and AI Developer (DWWM + AI) *October 2026*
Simplon Senegal, Dakar

Higher National Diploma (BTS) in Industrial Computing and Networks *October 2023 – July 2025*
Senegal-Japan Vocational and Technical Training Center (CFPT), Dakar

2nd-year Bachelor's in Mathematics, Physics and Computer Science *October 2021 – February 2023*
Alioune Diop University, Bambey

Scientific Baccalaureate (S2 series) *July 2018*
Groupe Scolaire Educazur

CERTIFICATIONS

Artificial Intelligence Certificate | FORCE-N Program (UN-CHK & Mastercard Foundation) *2026*
Front-End Development Certificate | FORCE-N Program *2024*
Cybersecurity Certificate – Women in Cybersecurity Education (WiCE) | Cyber221 *2024*
Digital Marketing Certificate | FORCE-N Program *2023*
Computer and Internet Skills Certificate | FORCE-N Program *2023*
